2017**

GABRIELLA

**Gold Medal
at Skate Bangkok
2017**

October/November are Cancer Awareness Months. Posters depicting various form of this deadly diseases are found all over the school. The school will be arranging for a Health Officer who will come to create awareness to all students on the dangerous diseases here. Should you feel you'd like to donate towards this society, please do fill in the form attached and pass to the Front Office or Homeroom Teachers. All donations will go towards the organization needing this fund.

Korean food is in Kingsley cafeteria!
As the school progresses, food choices will increases. We are now putting KOREAN into the menus. If you have any suggestion - please go to the Front Office and fill in a feedback form today!

CSR-BEAUTIFUL GATES

The year has begun on a most wonderful note, and as the school continues to flourish, we know you all have been the contributing factor behind our daily endeavours. The school is embarking on its annual round of helping the Beautiful Gate and Montfort Boys Town and their plight to improve their living condition.

MOP-UP BRIGADE

Aside from turning out some of the top students, Kingsley is helping students to become conscientious citizens. We are teaching kids a simple lesson: how to clean up after themselves. This practice starts when students are in Year 1 and continues right through to secondary; involves sweeping, wiping all the shelves and students are also personally required to take care of their surroundings. We hope that students will learn to treat the environment with more respect. We believe in helping students take

ownership and make it their own. It is to teach fundamental life skills which go far beyond math and science. We also aim to help students cultivate good habits for life. Such activities help to cultivate good habits in student both in school and at home. Cleaning activities will teach students important values. Hence, getting students to take part in cleaning exercises in school is a good way to impart fundamental life skills.

~Ms. Yasotha~

MULTIPLE INTELLIGENCES

MULTIPLE INTELLIGENCES (Howard Gardner)

This theory of MI differentiates intelligence into specific 'modalities', rather than seeing intelligence as dominated by a single general ability. Each person would have a minimum of 3-4 M.I.
Teachers teach better when they are able to identify their students M.I.

Nature Smart

Naturalist
Understand nature and processes

People Smart

Interpersonal Skill
Ability to communicate

Number Smart

Logical Mathematical Skill
Logical skill can detect patterns and logic

Picture Smart

Spatial Visual
Ability to see and map in 3D and colors

Self Smart

Intrapersonal
Working well by himself

Body Smart

Kinesthetic
Ability to perform using body (hands, legs etc)

Music Smart

Musical
Ability to recognize, create and understand music

Word Smart

Linguistic
Ability to speak and write well

KIS/2014

Lessons are sometimes geared for the bodily-kinaesthetic with physical activities or hands-on learning.

Our Speech and Drama classes involves lots of acting out and role playing. Students with musical learning style love music and work better with soft music in the background as they are also sensitive to the sounds/noise in their surroundings.

Referencing the multiple-intelligences theory helps our teachers to plan a flexible approach to encourage learning. Lesson activities can be planned to cater to students' needs, interests and strengths as we understand that not everyone learn the same content in the same way.

Teachers are encouraged to use a mix of media or multimedia as it helps to cater to the different styles of learning that we have in any classroom.

EXTRA CURRICULAR ACTIVITIES

Activities in Kingsley have always been exciting and interesting. New activities added were: Lion Dance, Chinese Diablo, Cookery, and Fencing. There will be more new ones to be added such as 3-D Programming, Wood Working, Enhanced Study Skills. You will be looped.

Robotic

Cookery

Chinese Diablo

Lion Dance

- Street Dance
- Volleyball
- Wushu
- Yoga
- K-Culture
- Art Awake
- Chinese Diablo
- Clay Modelling
- Cookery
- Gavel
- Handicraft
- I Discovery World
- Interact
- Scale Modelling
- Scouts
- Sewing

FAREWELL TO MS. MERIMA

Saying goodbye is never easy and to say Au Revoir to one of our most loved teacher- Ms. Merima - who is moving to Germany, students have been moved to tears. We wish Ms. Merima a blessed journey ahead and that our paths will cross again.
